3. In light of what we know, I believe the DDCI's package should include the following:

- DDO and DDI should collaborate to provide a comprehensive rundown of Agency participation in activities in U.S. narcotics. This rundown should include a brief history of Agency activities, current Agency manpower and budget devoted to this effort, a description of Agency collection and analytical efforts, and a description of Agency support for the initiatives of other U.S. Government agencies. The DDO/DDI input should include specifics as well as background on our indirect involvement in the effort to halt illegal drugs [] A brief set of talking points should summarize the more detailed back-up material and data.
- D/ICS should provide a separate input responding to the DDCI's request for information on priorities as well as a summary of collection and analysis activities by all intelligence agencies.
